INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Education
Fox C-6 School District

Report on the Financial Statements

We have audited the accompanying modified cash basis financial statements of the governmental activities, each major fund and the remaining fund information of Fox C-6 School District ("District"), Missouri, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note I; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, each major fund and the remaining fund information of the District as of June 30, 2014, and the respective changes in modified cash basis financial position thereof for the year then ended in accordance with the basis of accounting described in Note I.

Emphasis of Matters

As described in Note XII to the financial statements in 2014, the District has adopted new accounting guidance, GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinions are not modified with respect to this matter.

Basis of Accounting

We draw attention to Note I of the financial statements that describes the basis of accounting. The financial statements are prepared on a modified cash basis of accounting which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Report on Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Management's Discussion and Analysis, Budgetary Comparison Schedules and Schedule of Expenditures of Federal Awards, as required by *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Budgetary Comparison Schedules presented on pages 40 through 44 and the Schedule of Expenditures of Federal Awards presented on page 57 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Budgetary Comparison Schedules and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management's Discussion and Analysis on pages 4 through 11 has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2014, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

The Management's Discussion and Analysis (MD&A) of the Fox C-6 School District ("District") provides an overview and analysis of the District's modified cash basis financial activities for the fiscal year ended June 30, 2014. The intent of the MD&A is to look at the District's modified cash basis financial performance as a whole. Readers should also review the modified cash basis financial statements found in the Financial Section starting on page 12 and the notes thereto to enhance their understanding of the District's modified cash basis financial performance.

The financial statements of the District have been prepared on the modified cash basis of accounting, as applied to local governmental units, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Differences in the modified cash basis of accounting and accounting principles generally accepted in the United States of America arise in the recognition of revenue when received, rather than when earned, and the presentation of expenditures/expenses when paid versus when incurred. Additional information of the District's modified cash basis of accounting can be found in Note I on Page 22.

The MD&A is voluntarily provided additional information provided by the District which is specified in the Governmental Accounting Standards Board (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued in 1999. Certain comparative information between the current year, 2013-2014 (FY14), and the prior year, FY13, is required to be presented in the MD&A.

Financial Highlights

Key financial highlights for the fiscal year ended June 30, 2014, include the following:

The governmental activities net position (modified cash basis) was \$30,741,815.87 as compared to \$46,016,884.24 the previous year. The governmental funds ending fund balances (modified cash basis) were \$23,662,172.63 as compared to \$39,045,947.53 the previous year.

Program revenues collected made up 55.3% of the total revenues collected for the year ended June 30, 2014, as compared to 44.1% the previous year. These program revenues collected covered 49.0% of the program expenditures paid leaving 51.0% to be covered by general revenues collected and fund balances, as compared to 46.7% of the program expenditures paid leaving 53.3%, to be covered by general revenues collected and fund balances the previous year.

Using the Basic Financial Statements

The District's basic financial statements consist of a series of financial statements and the associated notes to those statements. The statements are organized so the reader can understand the modified cash basis operations of the District as a whole (i.e., an entire operating entity). The "Basic Financial Statements" section includes government-wide financial statements, fund financial statements and notes to financial statements.

The government-wide financial statements, consisting of the Statement of Net Position (modified cash basis) and the Statement of Activities (modified cash basis) (see pages 12 and 13), provide highly consolidated modified cash basis financial information and render a government-wide perspective of the District's modified cash basis financial condition. They present an aggregate view of the District's modified cash basis finances. These statements seek to answer the question, "How did the District do financially during the 2013-2014 fiscal year?" In short, is the District better financially this year, or is it worse than the prior year? These statements include all cash and investments using the modified cash basis of accounting.

By showing the change in net position (modified cash basis) for the year, the reader may ascertain whether the District's modified cash basis financial condition has improved or deteriorated. The changes which are discussed in this MD&A may be financial or non-financial in nature. Non-financial factors which may have an impact on the District's financial condition include increases in or erosion of the property tax base within the District, facilities maintenance and condition, mandated educational programs for which little or no funding is provided, or other external factors.

To provide more in depth reporting of the District's modified cash basis financial position and changes in cash basis financial position, fund financial information is presented in the "Fund Financial Statements" section beginning on page 14. These fund financial statements, which should be familiar to those who have read previous governmental financial statements, report governmental activities on a current cash basis, indicating modified cash basis sources and uses of funding.

Fund financial statements also provide more in-depth data on the District's most significant funds, its General Fund, Special Revenue Fund, Debt Service Fund and Capital Fund. These funds are considered "major funds" under GASB Statement No. 34. The relationship between governmental activities reported in the government-wide financial statements and the governmental funds reported in the fund financial statements is reconciled in the financial statements on pages 16 and 17.

The remaining financial statements of the proprietary fund present modified cash basis financial information relative to the internal services fund, which accounts for the self-insured health care plan.

Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The accounting used for fiduciary funds is presented on a modified cash basis which is consistent with the other funds of the District.

Governmental Activities (concluded)

As reflected above, the expenses paid of the District's governmental activities for the years ended June 30, 2014 and 2013, of \$133,373,892.30 and \$138,698,219.17, respectively, are not all borne by the taxpayers of the District. Of these amounts \$8,032,531.40 and \$7,234,857.57 were paid by those who benefited from the services rendered (e.g., charges for school lunches) and \$56,525,255.11 and \$56,483,197.32 were paid through federal and state operating grants and contributions. For the year ended June 30, 2014, capital grants and contributions represent \$769,923.80 of total program revenue.

Consequently, the net costs of \$68,046,181.99 and \$73,907,085.78, after taking into consideration these fees and grants, were paid from other general revenues, which include property taxes paid by the taxpayers of the District as well as other taxes, additional state funding and fund balances.

The next table shows the total cost of programs and the net cost of these programs (after deducting charges for services and grants and contributions revenue collected of the various categories of expenses paid for the years ended June 30, 2014, and 2013. The net cost presentation allows the taxpayers of the District to determine the remaining cost of the various categories which were borne by them or paid from other general revenues and fund balances, and allows them the opportunity to assess the cost of these functions in comparison to the benefits received.

Governmental Funds Financial Analysis

The District uses funds to control and manage money for particular purposes (e.g., dedicated taxes and bond proceeds). The fund basis financial statements allow the District to demonstrate its stewardship over and accountability for modified cash basis resources provided by the taxpayers and other entities.

These statements also allow the reader to obtain more insight into the modified cash basis financial workings of the District and assess further the District's modified cash basis financial health. The District completed the fiscal year ended June 30, 2014, with a combined modified cash basis fund balance for Governmental funds (as presented in the Balance Sheet (Modified cash basis) on page 14) of \$23,662,172.63 as compared to a prior year fund balance of \$39,045,947.53, a decrease of \$15,383,774.90.

The fund balance of the operating funds (General and Special Revenue) was decreased by \$5,647,088.87 as compared to a decrease of \$1054,291.07 the previous year. No transfers were made to the Capital Projects Fund during 2013-2014.

The fund balance of the Debt Service Fund increased by \$113,181.10 as compared to an increase of \$971,686.57 in previous year.

The fund balance of the Capital Projects Fund decreased by \$9,849,867.13 due to the spending down of bond proceeds as compared to an increase of \$9,061,749.89 from the previous year.

The \$4,828,448.30 balance of the Debt Service Fund is legally restricted for payment of bond principal, interest and related fees.

The major source of revenue for operations and debt service is local property taxes amounting to \$38,618,457.42. This is derived from the District's operating levy of \$4.3199 and the debt service levy of \$.3300 for a total levy of \$4.6499. Other significant local revenues are \$10,003,157.55 from sales tax, \$402,924.77 from interest and earnings on investments, \$1,984,795.83 from food service, \$1,710,885.21 from community services and \$4,198,571.36 from student activities.

County revenues of \$2,750,920.85 are derived from state assessed utility property of \$2,444,085.25 and county fines of \$306,835.60.

State funding which makes up 42.8% of total revenues collected which increased from the previous year by \$472,635.63 to \$50,520,671.17. The State Foundation Formula for Basic State Aid was \$45,128,274.00, a decrease of \$458,362.00 from the prior year. Other significant state revenues collected are:

(UNAUDITED)

Budgetary Highlights

Over the course of the year, the Board of Education made no to revisions the District's budget to take into consideration expected changes in revenues collected or expenditures paid. Missouri statutes for public School finance, Section 67.010, RSMo. require a budget amendment if anticipated expenditures are in excess of budgetary goals. The original budget was adopted on June 25, 2013.

Statements comparing fund modified cash basis revenues and expenditures to the original and final budgets are provided in the auditor's report on pages 40 to 44. General revenues were less than the original budgets reflecting the less than anticipated local revenues, state revenues and federal revenues. Total expenditures were less than the original budgets primarily due to expenditures being reduced as a result of the uncertainties in state funding and the warnings of further reductions projected for the next few years.

Capital Assets

The District operates under the modified cash basis of accounting, therefore, capital asset purchases are recorded as expenditures and depreciation is not recognized. Capital assets are not reflected in the financial statements. Increases in capital expenditure were primarily due to capital projects related to bond issuances for building and technology improvements.

Long-Term Debt

At June 30, 2014, the District had outstanding general obligation bonds of \$40,450,000 reflecting principal payments of \$1,350,000 made during the year.

State statutes limit the amount of general obligation debt a school district may issue to 15% of the assessed valuation. The debt limitation is \$126,091,049.40 at June 30, 2014, based on the December 31, 2013, assessed values.

The District has capital leases with outstanding future lease payments of \$27,465,562.59 at June 30, 2014, after principal payments of \$11,395,138.34 were made during the year. This included the refunding of the 2004 and 2005 issuances in the amount of \$6,310,000 and payment of escrows amounting to \$2,215,000.00. The District also obtained capital leases for the copy machines in the amount of \$885,700.93.

The District holds an energy loan with the Department of Natural Resources (DNR) with an outstanding balance of \$189,085.50. The District obtained additional low interest energy loans in the amount of \$165,185.50. Principal payments were made during the year in the amount of \$31,540.04.

The District has entered into an agreement with Brightergy for the installation of solar panels during the 2013-2014 year. These devices became active during July and August of 2014.

The District operates on the modified cash basis of accounting, therefore, payments on long-term debt are recorded as expenditures. Long-term debt is not reflected in the financial statements. Commitments for long-term debt and other obligations are disclosed in the notes to the financial statements in Note IV.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014
(UNAUDITED)

Economic Factors

The District adopted a deficit budget for the 2013-2014 fiscal. Expenditure controls were put into place in an attempt to limit some deficit spending. State funding short falls also intensified the deficit budgeting for the 2013-2014 fiscal year.

District average daily attendance appears to be stagnant and therefore revenue sources are at a standstill. At this time no, new sources of funding are expected.

The 2014-2015 budget was passed as a balanced budget. This has been accomplished through modifications to budgets and freezes to salary schedules. This is an attempt to correct deficit budgets in the 2013-2014 year and attempt rebuilding of fund balance in future years while meeting capital improvement and student resource needs.

Contacting the District's Financial Management

This financial report is designed to provide citizens, taxpayers, investors and creditors with a general overview of Fox C-6 School District finances and to demonstrate the District's accountability for the money it receives. FOX C-6 SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2014

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fox C-6 School District ("District") was established under the Statutes of the State of Missouri. The District operates as a "six director" District (with seven members of the Board of Education) as described in RSMo Chapter 162.

The financial statements of Fox C-6 School District have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting (OCBOA) other than generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. This modified cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements.

Reporting Entity

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. A decision whether to include a potential component unit in the reporting entity would be made by applying criteria set forth in GAAP. The basic, but not the only criterion for including a potential component unit within the reporting entity, is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations and accountability for fiscal matters. The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, the District has determined that no other outside agency meets the above criteria, and therefore, no other agency has been included as a component unit in the District's financial statements. In addition, the District is not aware of any entity that would exercise such oversight, which would result in the District being considered a component unit of the entity.

Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

FOX C-6 SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2014

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District, the primary government, as a whole. These statements distinguish between activities that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and modified cash basis of accounting. This is the same approach used in the preparation of proprietary fund financial statements, but it differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide Statement of Activities presents a comparison between direct expenses and program revenues of the District and for each program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

Fund financial statements report detailed information about the District. The District segregates transactions related to certain functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The District believes that all the funds presented are important to the users of its financial statements, therefore it considers the Incidental Fund, Special Revenue Fund, Debt Service Fund, and Capital Projects Fund all to be major.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet which generally includes only current assets and current liabilities, and a statement of revenues, expenditures, and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e. expenditures and other financing uses) of current financial resources.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are summarized by providing a separate set of self-balancing accounts which include its assets, liabilities, and fund balances arising from revenues and expenditures. The measurement focus is upon determination of changes in the financial position rather than upon net income determination. The District uses the following funds:

General Fund: This fund is the general operating fund of the District, and accounts for expenditures for non-certified employees, pupil transportation costs, operation of plant, fringe benefits, student body activities, community services, the food service program, and any expenditure not required or permitted to be accounted for in other funds.

Special Revenue (Teachers') Fund: A special revenue fund is required to be established by state law which accounts for expenditures for certified employees involved in instruction and administration, and includes revenues restricted by the state and local tax levy allocations for the payment of teacher salaries and certain benefits.

Debt Service Fund: Accounts for the accumulation of resources for and the payment of, principal, interest and fiscal charges on general long-term debt.

Capital Projects Fund: Accounts for the proceeds of long-term debt, taxes and other revenues designated for acquisition or construction of major capital assets.

Proprietary Funds

Proprietary funds include enterprise and internal service funds. Enterprise funds account for ongoing organizations and activities, which are similar to those often found in the private sector. The measurement focus is upon the determination of change in net position. Internal service funds are established to account for services furnished by a department of the District to other departments on a cost reimbursement basis. The District's proprietary fund includes the activity of the District's self-insured medical benefits account.

Proprietary funds distinguish between operating revenues and expenses from nonoperating items. Operating revenues and expenses normally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service fund are District and employee contributions. Operating services of this internal service fund include benefit payments, insurance premiums and administrative costs. Investment income is reported as nonoperating revenue.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fiduciary Funds

The Statement of Fiduciary Net Position (Agency Fund) accounts for assets held by the District in a trustee capacity to pay for flex spending claims and contributions deducted from employees' paychecks.

Cash and Cash Equivalents

The District considers all liquid investments with original maturities of three months or less to be cash equivalents.

Basis of Accounting

The financial statements are presented on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP) as established by the Governmental Accounting Standards Board. This basis of accounting involves modifications to the cash basis of accounting to report in the statement of net position or balance sheet cash transactions or events that provide a benefit or result in an obligation that covers a period greater than the period in which the cash transactions or event occurred. Such reported balances include investments, short-term liabilities, arising from cash transactions or events.

This modified cash basis of accounting differs from GAAP primarily because certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected, and other accrued revenue and receivables) and certain liabilities and their related expense or expenditures (such as accounts payable and expenses for goods for services received but not yet paid, and other accrued expenses and liabilities) are not recorded in these financial statements.

In addition, other economic assets, deferred outflows, liabilities, and deferred inflows that do not arise from a cash transaction or event (such as donated assets and postemployment benefit obligations) are not reported, and the measurement of reported assets and liabilities does not involve adjustment to fair value.

If the District utilized the basis of accounting recognized as generally accepted in the United States, the fund financial statements for governmental funds would use the modified accrual basis of accounting, and the fund financial statements for proprietary fund types (if any) would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

Fiduciary Funds are maintained on the cash basis of accounting. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the cash basis of accounting, revenue is recorded when received and expenditures are recorded when paid.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenues-Exchange and Non-Exchange Transactions

Revenues resulting from exchange transactions, in which each party receives essentially equal value, are recorded on the modified cash basis when the District receives the revenue.

Non-exchange transactions, in which the District receives value without directly giving value in return, include property taxes, grants, entitlements and donations. On a modified cash basis, revenue from property taxes is recognized in the fiscal year for which the taxes are collected. Revenue from grants, entitlements and donations is recognized in the fiscal year in which the funds are received and eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis.

Post-Employment Benefits

COBRA Benefits - Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District provides healthcare benefits to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium is paid in full by the insured on or before the tenth (10th) day of the month for the actual month covered. This program is offered for a duration of 18 months after the termination date. There is no associated cost to the District under this program, and there were no participants in the program as of June 30, 2014.

The District also has a policy that allows retirees to remain in the insurance program of the District. The premium is paid in full by the insured. During the year ended June 30, 2014, 389 retirees participated in the District's insurance plans and paid premiums totaling \$1,841,184.75.

Inventories

The District does not maintain inventory cost records. Inventory is deemed to be immaterial and is accounted for using the purchase method in which supplies are charged to expenditures when purchased.

Self Insured Medical Benefits

The District is under a self-insured plan to provide medical benefits to participating employees and their families. The participating employees contribute to the self-insurance fund through payroll deductions based on their coverage election. The District's maximum liability for each employee and in the aggregate for a one-year period is limited by insurance coverage. Transactions for the self-funded insurance are recorded in the Internal Service Fund.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Flex Spending Arrangement

The District has established a flexible spending arrangement, which is a benefit that provides employees with coverage under which specified, incurred expenses may be reimbursed (subject to reimbursement maximums and other reasonable conditions). This arrangement allows participating employees to make pre-tax contributions to the flexible spending arrangement accounts for reimbursements of health and/or dependent care expenses.

The employee does run the risk of forfeiture of any unused contribution by the end of the maximum time period allowed under the plan. A third party administers the reimbursement for the District. The District merely acts as an agent, withholding the funds and reimbursing approved health and/or dependent care expenses.

Salaries

The District's scheduled salary payment for the 2013-14 school year involves paying salaries over a 12-month period. Consequently, the July and August 2014 payroll checks are included in the accompanying financial statements as an expenditure paid in the month of June. This practice has been consistently followed in previous years.

Compensated Absences

Vacation time, personal business days, and sick leave are considered as expenditures in the year paid. Amounts that are unpaid and vested in the employee are paid at termination. Total vested and unpaid sick leave at June 30, 2014, amounted to approximately \$4,080,077.64. This estimate has not been subjected to auditing procedures.

Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable Fund Balance consists of funds that cannot be spent due to their form (e.g., inventories and prepaids) or funds that legally or contractually must be remain intact. The District did not have any nonspendable resources as of June 30, 2014.

Restricted Fund Balance consists of funds that are mandated for a specific purpose by external parties, constitutional provisions or enabling legislation. Debt service resources are to be used for future servicing of the District held bonds and are restricted through debt covenants.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

Fund Balance Classification (concluded)

Committed Fund Balance consists of funds that are set aside for a specific purpose by the District's highest level of decision-making authority, which is the Board of Education. Formal action must be taken prior to the end of the fiscal year, such as a vote from the Board of Education. The same formal action must be taken to remove or change the limitations placed on the funds. The District did not have any committed resources as of June 30, 2014.

Assigned Fund Balance consists of funds that are set aside with the intent to be used for a specific purpose by the District's highest level of decision-making authority, which is the Board of Education, or a body or official, like the Superintendent, who has been given the authority to assign funds. Assigned funds cannot cause a deficit in unassigned fund balance. This classification includes the remaining positive fund balance of all governmental funds except for the General Fund.

Unassigned Fund Balance consists of excess funds that have not been classified in the previous four categories. All funds in this category are considered spendable resources. This category also provides the resources necessary to meet unexpected expenditures and revenue shortfalls.

The District would typically use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but it reserves the right to selectively spend Unassigned resources first to defer using these other classified funds.

As of June 30, 2014, fund balance components other than unassigned fund balances consist of the following:

	<u>Nonspendable</u>	<u>Restricted</u>	<u>Committed</u>	<u>Assigned</u>
General Fund	\$ -	\$ -	\$ -	\$ 1,633,571.37

II. DEPOSITS AND INVESTMENTS

The District is governed by the deposit and investment limitations of state law.

Governmental and Proprietary Funds

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At June 30, 2014, the carrying amount of the District's governmental fund deposits and investments was \$24,370,734.28, and the carrying amount of the District's proprietary fund deposits and investments was \$7,079,643.24. The bank balance was \$47,999,932.79. Of the bank balance, \$500,000.00 was covered by federal depository insurance and \$23,870,734.28 was covered by collateral held at the Federal Reserve Bank and the District's safekeeping bank agent, in the District's name.

The deposits and investments held at June 30, 2014, for the governmental and proprietary funds are reported at historical cost value and are as follows:

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's investment policy does not include custodial credit risk requirements. The District's deposits were not exposed to custodial credit risk for the year ended June 30, 2014.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the District or its agent but not in the government's name. The District does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the District or of a type not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the District for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The District has a policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The District's deposits were not exposed to concentration of investment credit risk for the year ended June 30, 2014.

III. TAXES

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable by December 31. All unpaid taxes become delinquent January 1, of the following year. The county collects the property taxes and remits them to the District on a monthly basis.

The District also receives sales tax collected by the State, and it is remitted based on prior year weighted average daily attendance.

Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a District to 15% of the assessed valuation of the district (including state-assessed railroad and utilities). The District did not exceed the available bonding capacity at June 30, 2014.

CAPITAL LEASES

The District entered into a capital lease for \$6,310,000 to refund the 2004 and 2005 capital leases. During 2008, the District entered into a \$12,465,000, cancelable lease agreement used to finance the acquisition of the new school. During 2007, the District entered into a \$10,000,000 capital lease to finance energy improvements and classroom additions to Seckman High School, Seckman Middle School and Simpson Elementary. During 2006, the District entered into a \$3,500,000 capital lease to refurbish three District buildings. These leases qualify as capital leases for accounting purposes and therefore, they have been recorded at the present value of the future minimum lease payments as of the date of their inception.

The District entered into a capital lease on September 30, 2013, for 51 copy machines with Banc of America Public Capital Corp for \$885,700.93. The terms of the lease agreement include an interest rate of 1.75% with 10 payments of \$92,888.22, ending September 30, 2018. The total lease expense for the year ended June 30, 2014, was \$92,888.22.

The capital lease payments were made from the capital projects fund. The amount due within one year is \$2,687,518.08.

These cancelable lease agreements were funded by Lease Participation Certificates. At the time of issuance, a reserve was established from the proceeds and was placed in a Reserve Fund to be used to pay amounts representing principal, premium, if any, and interest with respect to the Certificates, to the extent of any deficiency in the certificate fund and to pay and retire a portion of the last outstanding certificates unless such certificates and all amounts representing interest with respect thereto be otherwise paid. Interest earned on this reserve reduces the required semi-annual payment due September 1 and March 1 in an amount equal to earnings.

ENERGY/OTHER FINANCING

The District entered into a \$165,185.50 loan with a 2.5% interest rate and 1.0% loan origination fee, effective March 19, 2013, with the Missouri Department of Natural Resources (MDNR). Repayment of the loan begins February 1, 2014, with a final payment ending August 1, 2023.

The District entered into a \$101,004.04 loan, effective August 31, 2010, with the Missouri Department of Natural Resources (MDNR), Energy Efficiency Leveraged Loan Program appointed by the State Environmental Improvement and Energy Resources Authority. Interest on the loan during the term of the loan is 0.00% and is to be paid back over a term of five years with the final payment due August 1, 2015. The District received \$100,000.04 with 1% of the total issuance being held by MDNR as a loan origination fee.

PSRS/PEERS administers two separate pension plans as described below.

1. The District contributes to the Public School Retirement System of Missouri (PSRS) – PSRS is a mandatory cost-sharing multiple-employer defined benefit pension plan for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and some educational associations. PSRS provides service retirement, death and disability benefits to its members.

Statutes governing PSRS are found in Sections 169.010 - 169.141 and Sections 169.560 – 169.595 of RSMo.

PSRS members were required to contribute 14.5% of the annual covered salary during 2011-2012, 2012-2013 and 2013-2014. The employer districts were required to match this amount. The Board of Trustees sets the contribution rate based upon the recommendation of the system’s actuary.

Total required employer contributions for PSRS are equal to 100% of employer charges. The School District’s contributions to PSRS for the years ending June 30, 2014, 2013 and 2012 were \$9,456,328.17, \$9,143,758.99, and \$8,975,532.95.

V. PENSION PLANS (concluded)

2. The District also contributes to The Public Education Employee Retirement System of Missouri (PEERS) – PEERS is a mandatory cost-sharing multiple-employer defined benefit pension plan for non-certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and some educational associations. Employees of covered districts who work 20 or more hours per week on a regular basis and are not contributing members of PSRS must contribute to PEERS.

Statutes governing PEERS are found in Sections 169.600 – 169.715 and Sections 169.560 – 169.595 RSMo.

PEERS members were required to contribute 6.86% of the annual covered salary during 2011-2012, 2012-2013 and 2013-2014. The employer districts were required to match this amount. The Board of Trustees sets the contribution rate based upon the recommendation of the system's actuary.

Total required employee contributions for PEERS are equal to 100% of employer charges. The School District's contributions to PEERS for the years ending June 30, 2014, 2013 and 2012 were \$1,239,223.60, \$1,256,390.50, and \$1,249,628.31.

PSRS/PEERS issues a stand-alone Comprehensive Annual Financial Report. Interested parties may obtain a copy by writing to PSRS/PEERS, P.O. Box 268, Jefferson City, MO 65102 or by calling 800-392-6848. A copy may also be viewed online at <http://www.psr-peers.org/Investments/AnnualReport.htm>.

VI. DEFERRED COMPENSATION PLAN

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all district employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. In accordance with Internal Revenue Code Section 457, the deferred compensation is put in accounts under the participating employee's name. The plans are administered by independent plan administrators through administrative service agreements. The District's administrative involvement is limited to transmitting amounts withheld from payroll to the plan administrator who performs investing functions. The assets will not be diverted to any other purpose. Therefore, the financial activity of these plans is no longer reported in the District's Agency Fund.

VII. EMPLOYEE BENEFIT PLAN

The District offers its employees tax sheltered investment programs created in accordance with Internal Revenue Service Code Section 403(b). The plan is available to all District employees and permits them to accumulate funds through salary deferral on a tax-free basis until such funds are withdrawn from the plan.

VIII. SELF-INSURED AND POST-RETIREMENT MEDICAL BENEFITS

The District generally retains the risks related to its obligations to provide medical benefits to participating employees. These employees contribute to the self-insurance fund through payroll deductions based on their coverage election. However, the District's maximum liability for each employee or in the aggregate for a one-year period is limited by excess insurance coverage.

The District permits its retirees, both classified and certified, to participate in the medical insurance programs offered to current employees, including the District's self-insurance program. Retirees pay 100% of the insurance premiums or applicable contributory amounts in the case of the self-insurance program. The amount of medical benefits paid through the self-insurance program during 2013-2014 for retirees, in excess of their contributions, is not readily determinable.

IX. INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2014, were made to zero the remaining fund balance of the Special Revenue Fund.

Fund	Transfers In	Transfers Out
General Fund	\$ -	\$ 19,842,439.35
Special Revenue Fund	19,842,439.35	-
	\$ 19,842,439.35	\$ 19,842,439.35

X. RESTRICTED FUND BALANCE

The District's restricted fund balance consists of \$4,828,448.30 for the debt service fund and \$863,737.32 for unspent bond proceeds.

XI. CONTINGENCIES

Grant Audit – The District receives federal grants and state funding for specific purposes that are subject to review and audit. These reviews and audits could lead to requests for reimbursement or to withholding of future funding for expenditures disallowed under, or other noncompliance with terms of the grants and funding. The District is not aware of any noncompliance with terms of the grants and funding. The District is not aware of any noncompliance with federal or state provisions that might require the District to provide reimbursement.

Litigation – At this time, there are no litigation matters.

XII. CHANGE IN ACCOUNTING PRINCIPLE

During the fiscal year ended June 30, 2014, the District implemented Governmental Accounting Standards Board Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities, and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

XIII. SUBSEQUENT EVENT

The District entered into a solar lease with Brightergy for solar panels on 16 buildings. Terms of the lease are 10 years with payments totaling \$2,700 per month. The payments are scheduled to begin on 8/1/2014.

NOTES TO THE BUDGETARY COMPARISON SCHEDULES
YEAR ENDED JUNE 30, 2014

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1) In accordance with Chapter 67, RSMo, the District adopts a budget for each fund of the political subdivision.
- 2) Prior to July, the Superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning July 1. The proposed budget includes estimated revenues and proposed expenditures for all District funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
- 3) A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4) On June 25, 2013, the budget was legally enacted by a vote of the Board of Education.
- 5) Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the Board. Adjustments made during the year are reflected in the budget information included in the accompanying financial statements.
- 6) Budgeted amounts are as finally amended by the Board of Education.

FOX C-6 SCHOOL DISTRICT
OTHER POST-EMPLOYMENT BENEFITS
YEAR ENDED JUNE 30, 2014

OTHER POST-EMPLOYMENT BENEFITS

In addition to the pension benefits described in Note I and VIII, the District allows employees who retire from the District to participate in the District's medical, dental and vision insurance plans. Upon meeting the retirement requirements of PSRS and PEERS, the employees can elect to participate in the District's plans. The retirees must pay for 100% of their coverage for each plan in which they elect to participate.

The premiums are based on a single-blended rate used for both active employees and retirees. The difference between the amount the retiree is required to pay and the actual cost to the District is considered to be a post-employment benefit. The District has not established an irrevocable trust fund for the accumulation of resources for the future payment of benefits under the plan; benefits are paid on a pay-as-you-go basis. A stand-alone financial report is available for the plan. During the year ended June 30, 2014, 389 retirees participated in the District's insurance plans and paid premiums totaling \$1,841,184.75.

INDEPENDENT ACCOUNTANT'S REPORT ON MANAGEMENT'S ASSERTIONS ABOUT COMPLIANCE WITH SPECIFIED REQUIREMENTS OF MISSOURI STATE LAWS AND REGULATIONS

To the Members of the
Board of Education
Fox C-6 School District

Report on Compliance with State Requirements

We have examined management's assertions that the Fox C-6 School District complied with the requirements of Missouri laws and regulations regarding budgetary and disbursement procedures; accurate disclosure by the District's records of average daily attendance and average daily transportation of pupils, and other statutory requirements as listed in the Schedule of Selected Statistics for the year ended June 30, 2014.

Management's Responsibility

Management is responsible for the District's compliance with the aforementioned requirements.

Auditors' Responsibility

Our responsibility is to express an opinion on management's assertions about the District's compliance based on our examination. Our examination was made in accordance with the attestation standards established by the American Institute of Certified Public Accountants and, accordingly, includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our opinion does not provide a legal determination on the District's compliance with specified requirements.

Opinion on Compliance with State Requirements

In our opinion, management's assertions that the Fox C-6 School District complied with the aforementioned requirements for the year ended June 30, 2014, are fairly stated, in all material respects.

This report is intended solely for the information and use of the Board of Education, District management, the Missouri Department of Elementary and Secondary Education and other audit agencies and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

To the Members of the Board of Education
Fox C-6 School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the modified cash basis financial statements of the governmental activities, each major fund and the remaining fund information of Fox C-6 School District ("District"), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 15, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. [FS 2014-001, FS 2014-002, FS 2014-003]

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the District in a separate letter dated December 15, 2014

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
OMB CIRCULAR A-133

INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Education
Fox C-6 School District

Report on Compliance for Each Major Federal Program

We have audited Fox C-6 School District's ("District") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2014. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

FOX C-6 SCHOOL DISTRICT
 NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
 FOR THE YEAR ENDED JUNE 30, 2014

NOTE 1 - GENERAL

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal award programs of the Fox C-6 School District ("District"). The District's reporting entity is defined in Note I to the District's accompanying financial statements. Federal awards received directly from federal agencies, as well as federal awards passed through other government agencies are included on the schedule.

NOTE 2 – BASIS OF PRESENTATION

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means federal financial assistance and federal cost-reimbursement contracts that non-federal entities receive directly from federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the Schedule includes expenditures of both cash and noncash awards.

NOTE 3 - BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards is presented using the cash basis of accounting.

NOTE 4 - RELATIONSHIP TO ACCOMPANYING FINANCIAL STATEMENTS

Federal awards are reported in the District's accompanying financial statements as follows:

<u>FEDERAL SOURCES</u>	
General Fund	\$ 5,102,704.79
Special Revenue Fund	2,071,488.52
Capital Projects Fund	11,500.95
	\$ 7,185,694.26

NOTE 5 - RELATIONSHIP TO FEDERAL FINANCIAL REPORTS

Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports except for changes made to reflect amounts in accordance with generally accepted accounting principles, as applicable to the modified cash basis of accounting.

NOTE 6 -MATCHING REVENUES

For those funds that have matching revenues and state funding, federal expenditures were determined by deducting matching revenues from total expenditures.

NOTE 7 – NON-CASH PROGRAMS

The commodities received, which are non-cash revenues, are valued using prices provided by the United States Department of Agriculture.

NOTE 8 – SUBRECIPIENTS

The District provided no federal awards to subrecipients during the year ended June 30, 2014.

FOX C-6 SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2014

II. FINANCIAL STATEMENT FINDINGS

FS 2014-001 Criteria: Credit card purchases made by District employees must follow the District's credit card policy agreement.

Condition: Information was provided by current management regarding purchases made by District employees that appeared to be for personal benefit and not intended for District use.

Context: This became apparent through our discussions with current management and subsequent review of the District credit card activity.

Effect: Prior management of the District did not review or question the credit card purchases made by the District employees. This can cause personal expenditures to be paid by the District.

Cause: Prior management did not place adequate emphasis on internal controls of monitoring the credit card transactions of its employees.

Recommendation: We recommend that the District review the credit card statements and receipts of its employees on a monthly basis and properly monitor those expenditures. This recommendation has already been implemented by current management.

Views of responsible officials and planned corrective actions: Current management has established a user agreement for District employees to accept in order to use District credit cards. The Chief Financial Officer has established a more intensive review process and a detail of these charges are presented to the Board of Education on a monthly basis.

FS 2014-002 Criteria: Employees of the District must follow the District's policies on travel, lodging and meal allowance when out-of-town travel is required.

Condition: Information was provided by current management regarding credit card transactions and employee reimbursements that violated the District's policies on out-of-town travel.

Context: This deficiency became apparent through our discussion with current management and subsequent review of the policies regarding travel, lodging and meal allowance for out-of-town travel.

Effect: Prior management did not review or question the expenses related to out-of-town travel by District employees. Therefore, purchases for travel, lodging and meals were over the limits of \$250 for airfare, \$110 per night for hotel stays and \$40 per day for meals. This creates overspending with regards to the District's policies.

Cause: Prior management did not place adequate emphasis or controls in place, to monitor employee travel, lodging and meal allowances policies.

Recommendation: We recommend that the District enforce its policies regarding travel, lodging and meal allowances. It is also recommended that the District review employee expenses related to out-of-town travel. These recommendations have already been implemented by current management.

FOX C-6 SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2014

II. FINANCIAL STATEMENT FINDINGS (concluded)

FS 2014-002 Views of responsible officials and planned corrective actions: Current management along with the Board of Education have revised District travel policies to be more consistent with current travel expenses. The District is also requiring staff to make requests for reimbursements which allows for all travel expenses to be examined at one time per person.

FS 2014-003 Criteria: The District must have policies in place to prevent management's override of internal control over financial reporting. Management must obtain the Board of Education's approval for all new employees' rates and any modifications to contracts of current employees.

Condition: Prior management made overrides of internal control policies over financial reporting. Salary amounts paid to some District employees did not have board approval.

Context: This deficiency became apparent after discussions with current management, documents provided to the auditors and through subsequent review of the payroll records.

Effect: Prior management was able to override internal controls put in place by the District. Employees were hired and contracts were modified without proper board approval.

Cause: Those charged with governance did not plan for the potential of management override of internal control over financial reporting. Prior management did not follow the policies and procedures of the District regarding employee pay rates and modifications to contracts.

Recommendation: We recommend that those charged with governance be aware of the possibility of management override and make inquiries to gain assurance that management override of controls is not occurring. Current management should provide those charged with governance with periodic reviews of payroll records. They should compare the pay rate to the authorized contract amounts contained in the personnel files to determine that the current rates are appropriate. In addition, on a regular basis, the appropriate level of current management should determine that the current pay rates agree with approved rates.

Views of responsible officials and planned corrective actions: Current management has implemented a system where all hires and contracts must be board approved. Payrolls are not permitted to be performed without adequate written authorization. The Board of Education has also been presented with options for a whistle blower policy which would allow for anonymous reporting of questionable activities.
